

Safe Football

What is safe Football?

Safe Football is a pro-active approach in raising the awareness and minimising the potential risks that can be minimised to provide a safe and friendly environment for Football.

Do you know how to access and know where to locate the safe football information?

Your club has been provided with the resources to assist you in understanding the objectives and how Safe Football works.

You also have the opportunity to undertake a brief, online tutorial that will avail the necessary knowledge for you to better understand the Safe Football plan and pro-active approach to minimising risk to you and your children.

Are your goal posts safe?

FFA, in conjunction with the ACCC (Product Safety Australia) has designed guidelines for securing goal posts. Please visit their website www.productssafety.gov.au/soccergoals.

Are the first aid and medical equipment adequate and does your football club have adequately qualified personnel available on all match and sporting activities?

Please contact your designated club Responsible Officer and/or Risk Management Officer for further information on the medical facilities provided by your football club.

Are you aware of the serious injury procedures and protocols at your club?

Procedures for:

- Head and neck injuries

- Concussion
- Blood spillage

Please contact your designated club Responsible Officer and / or Risk Management Officer for further information on the Serious Injury Procedures and Protocols.
